

FENCING

INSTRUCTION MANUAL

- Most importantly, recycled plastic materials just like these fence boards, expanding and shrinking following temperature changes
- The plastic fence post can be fixed with concrete just like wooden post
- Recycled plastic can be sawn using a handsaw, circular saw or chop saw
- Boards must be pre drilled before screwing
- Use 8 mm HSS drill for 5x100 mm decking screws
- Use 7 mm HSS drill for 4.5x40 mm decking screws
- Made from 100% recycled plastic
- There is no wood component in it so does not absorb water
- It is not hollow so the water can not stuck inside and damage it
- UV stabilised colour

21x78x1000–1800 mm
fence board
